Arya Senior Secondary School

04/2016 - 04/2017

Gharaunda, India, 9.2/10 CGPA

PROJECT

Mobile phone centres and refurbished mobile resellers

Ramanujan College

Achievements/Tasks

- Aim for project is to help customers to buy mobile phones at low cost who find difficulty in buying and also they find trouble when there is some problem in their mobiles because local shopkeepers may change original part with local part. So we are looking for the project in which we will try to save time of customers so that they could not face any trouble with their mobile phones and could trust us in an efficient manner. And customers would get the new gadgets in low cost and would try to make website great so that customers did not get any problem in trusting this website. In this way we will help them to know about refurbished mobile phones which local people rarely know. In this way refurbished mobiles will also come in demand.

ACHIEVEMENTS

Ramanujan College (2019 - 2020)

Kabaddi player - First Position

Arya Senior Secondary School (2018 - 2019)

Merit in 12th class - Trophy from school
